This book brings together 30 papers commissioned from 2011 to 2013 by the EU-funded Europe – China Research and Advice Network (ECRAN). These papers, thematically grouped in sections on economics, society and politics, were written by some of the world's leading China experts in Europe, and give a European perspective of this complex relationship. The papers provide a broad overview of how Europeans see the key challenges currently faced by China and

As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, Lemon-Aid Used Cars and Trucks 2011/2012 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. Lemon-Aid guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an exposé of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers can't beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz — rich cars, poor quality. There's only one Saturn you should buy. Toyota — enough apologies: "when you mess up, fess up."

Haley-database developer, CIA operative, and a multiple personality-is engaged to Willi Mayers. His violent past makes her return home, where her father is murdered. Haley's alter ego emerges, but, when

Haley shows an assassin mercy, his other self ends their arrangement. The twosome begin work on a Tribulation Tracking System, funded by a televangelist. On the team is Patricia Candor, a born again Christian. Seeing her faith makes agnostic Willi open to Christ, a decision atheist Haley frets about. When the team is attacked, Willi can't defend herself, so Haley sends her to the CIA's Farm. Then, outside events intrude. Women are abducted and churches are defiled by a cryptic message. Willi concludes the abductions are guided by Revelations' Seal, Trumpet, and Vial judgments. After an Al Qaeda operative recruits MS-13 to explode IEDs at a school, Willi renounces God and plans to execute all involved. Haley must now deal with two mass murderers and a woman he no longer trusts.

Offers advice for prospective buyers of cars and trucks, reveals information on secret warranties and confidential service bulletins, and tells how to complain and get results.
