Why has democracy failed to reduce corruption in Kenya? Framing the challenge in game theoretical terms, Dominic Burbidge examines how mutual expectations between citizens dictate the success or failure of political reforms. Since 1992, Kenya has conducted multiparty elections with the hope of promoting accountability and transparency in government. This is being undermined by ongoing corruption and an increasingly centralised state response to terrorism. Providing a nuanced assessment of democracy's difficult road in Kenya, Burbidge discusses the independent role being played by widespread social expectations of corruption. Through tracking average views of the average person, it is possible to identify a threshold beyond which society suffers mutually reinforcing negative social expectations. This trend is the shadow of Kenyan democracy, and must be treated as a policy challenge on its own terms before institutional reforms will be successful.

As riveting and current as today's headlines, CRIMINAL JUSTICE IN ACTION, Ninth Edition, is designed with today's busy students and instructors in mind. Concepts make sense to students, thanks to vivid straight-from-the-headlines vignettes at the beginning of every chapter and plentiful real-world examples throughout the book. Choosing what's important to remember is a snap with each chapter's numbered objectives, which are reinforced throughout the chapter as well as in the book's supplementary items. Thinking critically and writing become less intimidating for students with the guidance of practical writing activities. Reviewers praise the book's crisp, clear topic coverage as well as its engaging magazine-style design and captivating writing, which combine to draw students into the material. And, with this edition's expanded coverage of ethics, policy, and discretion, students gain a panoramic view of key criminal justice issues that goes far beyond learning facts and the law.
