Reprint. Originally published: Clifton Park, NY: Cengage Learning, [2016].

Introduces the fundamentals of working with Access XP databases and how the program can assist librarians in managing a library's data. Step-by-step instructions accompanied by screenshots illustrate how to create, modify, and delete the different types of objects in a database to design a card catalog and circulation record for a small library. The later chapters cover advanced queries, reports, macros, the switchboard manager, and security. Annotation (c)2003 Book News, Inc., Portland, OR (booknews.com).
