The Government is expected to respond to all reports from the Committee, within two months of publication The Committee then makes them available to the House and publishes them as required. This report makes 35 such responses available.

Elsievier/Butterworth-Heinemann's 2004-2005 CIM Coursebook series offers you the complete package for exam success. Comprising fully updated Coursebook texts that are revised annually, and free online access to the MarketingOnline learning interface, it offers everything you need to study for your CIM qualification. Carefully structured to link directly to the CIM syllabus, this Coursebook is user-friendly, interactive and relevant, ensuring it is the definitive companion to this year's CIM marketing course. Each Coursebook is accompanied by access to MARKETINGONLINE (www.marketingonline.co.uk), a unique online learning resource designed specifically for CIM students, where you can: * Annotate, customise and create personally tailored notes using the electronic version of the Coursebook * Receive regular tutorials on key topics from Marketing Knowledge * Search the Coursebook online for easy access to definitions and key concepts * Access the glossary for a comprehensive list of marketing terms and their meanings

This work brings together papers written by researchers and practitioners actively working in the field of human-computer interaction. It should be of use to students who study information technology and computer sciences, and to professional designers who are interested in User Interface design.

For Computerized Accounting courses using QuickBooks Pro 2004 QuickBooks Pro 2004 with 2005 Update demonstrates the many transactions that effect the accounting cycle with a true "hands-on" learning approach. Students explore and use the many features of QuickBooks Pro 2004 (with the latest 2005 updates) for service and merchandising businesses. Students are also then given the opportunity to use QuickBooks Pro in a company they create.

Manufacturing a product is not difficult, the difficulty consists in manufacturing a product of high quality, at a low cost and rapidly. Drastic technological advances are changing global markets very rapidly. In such conditions the ability to compete successfully must be based on innovative ideas and new products which has to be of high quality yet low in price. One way to achieve these objectives would be through massive investments in research of computer based technology and by applying the approaches presented in this book. The First International Conference on Advanced Manufacturing Systems and Technology AMST87 was held in Opatija (Croatia) in October 1987. The Second International Conference on Advanced Manufacturing Systems and Technology AMSV90 was held in Trento (Italy) in June 1990. The Third, Fourth, Fifth and Sixth Conferences on Advanced Manufacturing Systems and Technology were all held in Udine (Italy) as follows: AMST93 in April 1993, AMST96 in September 1996, AMST99 in June 1999 and AMST02 in June 2002.

This book again continues the biannual series of (now six) conference proceedings, which has become a classical reference in traffic and granular research alike. It addresses new developments at the borderline between physics, engineering and computational science. Complex systems, where many simple agents, be it vehicles or particles, give rise to surprising and fascinating phenomena.
