Featuring three new chapters on hybrid and electric vehicles, this fully updated 5th edition of AUTOMOTIVE SERVICE: INSPECTION, MAINTENANCE, REPAIR helps students develop the knowledge and skills they need to be successful in a range of automotive careers. Known for its clear explanations and high quality art, this best-selling text covers all eight major course areas of automotive technology, from an introduction to shop management to theories of vehicle systems operations with step-by-step procedures for trouble shooting and repair. Technically reviewed by instructors and industry experts and reflecting the latest ASE Education Foundation's Automobile Program Standards, this edition is ideal for students enrolled in ASE Education Foundation-accredited programs. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Updated to reflect the latest technology in the automotive industry, this book will provide the knowledge and skills needed to successfully inspect, maintain, and repair vehicles of all makes and models. Automotive Service: Inspection, Maintenance, and Repair, 3E begins by introducing readers to a number of automotive career options, shop management basics, plus necessary tools and equipment. The book then progresses to the theories of vehicle systems operations and includes step-by-step procedures for troubleshooting and repairing all major systems of the modern automobile. Updates include coverage of new vehicle technology like EVAP systems, on-board diagnostics and emissions, alternative fuels, and hybrid vehicles, making this book not only comprehensive but also current so that readers can feel confident they are learning the very latest in industry trends and techniques.

The newly-revised 4th edition of AUTOMOTIVE SERVICE, International Edition contains all the knowledge and skills necessary for a student to be successful in a number of automotive careers. This text covers all eight major course areas of automotive technology by progressing students through an introduction to shop management and then covering theories of vehicle systems operations with step-by-step procedures for trouble-shooting and repairing automobiles. Technically reviewed by instructors and industry experts, the 4th edition of this popular text is designed in particular for students enrolled in NATEF-certified programs. Updated and expanded content in this edition includes coverage of hybrid vehicles, HTHS viscosity ratings, latest coolants, ejector cycle systems, dynamometer, and turbochargers and superchargers.

The Lab Manual to accompany Automotive Service, 5e lets students put their knowledge of automotive systems to work. Activity sheets reinforce theory learned in the core text through parts identification exercises, matching exercises, and fill-in sheets. The second part of the Lab Manual includes a wide variety of hands-on worksheets that emphasize practical, real-life skills needed to service today's automobiles. References to current NATEF Standards are included on all relevant worksheets.

This complete textbook provides detailed content on the theory of operation, diagnosis, repair, and rebuilding of automotive engines. In addition to essential technical expertise, the text helps users develop the skills and knowledge they need for professional success, including critical thinking and awareness of key industry trends and practices. The text emphasizes universal repair techniques and case histories based on real-world scenarios to prepare users for careers in the field. Instructor resources include lesson plans, customizable lab sheets that address NATEF Standards, a customizable test bank with questions based on chapter content, presentations in PowerPoint, and more. Now updated with new, full-color images and information on the latest trends, tools, and technology—including hybrid engines and high-performance components—AUTOMOTIVE ENGINES: DIAGNOSIS, REPAIR, REBUILDING, Seventh Edition, is the ideal resource for automotive programs who want a complete teaching package for their Engines course. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

In 'Service Advising and Management', students gain the communication, customer service, and automotive knowledge they need to balance competing demands from customers, technicians, and shop management to become successful service advisors.

The two-part Lab Manual contains activity sheets to help you master core concepts in the textbook. Lab Preparation Worksheets emphasize the practical, real-life skills you will need to service today's automobiles, while correlations to ASE Education Foundation task lists will help you track your progress toward certification.

AUTOMOTIVE MAINTENANCE AND LIGHT REPAIR (AM&LR) was designed to meet the needs of automotive programs that teach to the competencies specified in NATEF’s Maintenance & Light Repair (MLR) program standard. Designed for entry-level students, the primary features of AM&LR are the focus on the foundational principles and knowledge for the MLR tasks, and the activities to supplement student learning. In addition, Automotive Maintenance and Light Repair is written to engage students not just in automotive competencies, but also in applied academic skills and lifelong learning skills, including math, science, and communication. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
