In Kelly's corner: Former Marine Kelly Connolly will do anything to keep Bee Langston safe, but winning the underground cage fighting tournament to save his family's legacy comes at a high price--one that might just cost his sweet Bee her life.

The past few decades have seen remarkable technological growth in the delivery of modern medicine. Pharmaceutical, diagnostic, and surgical interventions have transformed the way in which health is perceived and medicine is practiced. The modern patient has become so dependent upon these therapies and interventions that they take a passive interest in their health. For author Dr. Mark W. Hatcher, this is a symptom of a culture in crisis—doctors treat disease instead of fostering health. Using real-life examples from a busy emergency room, he investigates this health-care crisis and reevaluates what it means to be healthy. In *Beyond Desire: Rediscovering Health and Wellness*, Hatcher examines the assumptions upon which the modern medical world is founded, explores the healing methods that have been practiced for centuries by healers around the world, and proposes a strategy for health that focuses on the importance of the mind and spirit in achieving and maintaining health. *Beyond Desire* shows how the practices of meditation, yoga, tai chi, acupuncture, proper eating, and selfless service are the true pathways to healing and rediscovering health and wellness.

Love Beyond Desire is a unique love story. It's about a girl who falls in love with her best friend, Arman when she is in school. It's a story of long-lost lovers who finally meet after nine years, and their love is still strong as it was before. It's a story with hope, passion, emotional confusion, emotional outburst, fun, mystery, happiness, admiration, love and desire, along with beautiful poems and songs to keep you entertained. Rhia knows that love is not being together forever, but it is to remember the moments together forever. Keeping this in mind, Rhia moves ahead in her life by managing personal and work life. It's been nine years since Arman left her, and Rhia manages her life just fine with a dream job and her own place, finally free from family drama. She turned her life and took control of it, but the only part of her life that she couldn't control was love. She couldn't love anyone because she is heartbroken. As she had found and lost her love on the same day, and when Arman left her forever without even a goodbye, but with just two letters both addressed to her, one 'To My Best Friend' and other 'To My Girlfriend' and a ring, which she still holds as a reminder – a proof of broken love. Rhia and her friends are enjoying the wedding celebration at Mumbai's luxurious hotel. Everything is great, and everyone is enjoying it until she sees Arman. He steps through the gate after long nine years along with his 3-year-old son, leaving her shocked and speechless. They are about to spend three days together under the same roof, and she is all worried, angry and pleased, again all at the same time. She wants to know why he left without a goodbye; it's all she wants to know. So, will she finally get answers? Will Arman finally say why he left her, and why he kissed her if he was about to leave?

Moving away from a dominant cultural equation of love, desire, and intimacy with marriage, *Beyond Desire* offers a radical view that reinstates the body as an enduring symbol of desire. Drawing on the works of seven twentieth-century male Tamil writers beginning with K.P. Rajagopalan, this book explores a spectrum of male-female intimacies wherein desire, liberated from the sexual act, acquires its own creative agency. Through a reading of selected works of writers like T. Janakiraman, Karichan Kunju, Mauni, M.V. Venkatram, Dandapani Jeyakantan, and Tanjai Prakash, this book focuses on the category of the sensual that intertwines the sexual and other modes of relating to the world through spirituality, social reform, and artistic labour. As most of these narratives are articulated through male characters, many of whom are torn between expressing their desire and preserving their religious integrity, the overarching mission remains rooted in discerning the shifts in male perception. The first book in English on modern Tamil literature, it offers alternative readings of sexualities that resist social and sexual definitions, and is a significant contribution to literary scholarship in Tamil. "

This book challenges critical approaches that argue for Giacomo Leopardi's and Samuel Beckett's pessimism and nihilism. Such approaches stem from the quotation of Leopardi in Beckett's monograph Proust, as part of a discussion about the removal of desire. Nonetheless, in contrast to ataraxia as a form

of ablation of desire, the desire of and for the Other is here presented as central in the two authors' oeuvres. Desire in Leopardi and Beckett is read as lying at the cusp between the theories of Jacques Lacan and Emmanuel Levinas, a desire that splits as much as it moulds the subject when called to address the Other (inspiring what Levinas terms 'infinity' as opposed to 'totality,' an infinity pitted against the nothingness crucial to pessimist and nihilist readings).

First published in French in 1979, "The Ambivalence of Scarcity" was a groundbreaking work on mimetic theory. Now expanded upon with new, specially written, and never-before-published conference texts and essays, this revised edition explores René Girard's philosophy in three sections: economy and economics, mimetic theory, and violence and politics in modern societies. The first section argues that though mimetic theory is in many ways critical of modern economic theory, this criticism can contribute to the enrichment of economic thinking. The second section explores the issues of nonviolence and misrecognition (méconnaissance), which have been at the center of many discussions of Girard's work. The final section proposes mimetic analyses of the violence typical of modern societies, from high school bullying to genocide and terrorist attacks. Politics, Dumouchel argues, is a violent means of protecting us from our own violent tendencies, and it can at times become the source of the very savagery from which it seeks to protect us. The book's conclusion analyzes the relationship between ethics and economics, opening new avenues of research and inviting further exploration. Dumouchel's introduction reflects on the importance of René Girard's work in relation to ongoing research, especially in social sciences and philosophy.

This book proposes and describes a new category of perception ("vibratory awareness") beyond thought, feelings or instinct, by which all kinds of absolute questions are answered. This awareness itself thinks, organizes and loves. It balances, neutralizes and heals human problems, and relates man to the Divine. In different scriptures it has been named as divine breath or the flood of bliss. It is innate in every human being, though unconscious for most. Great prophets and founders of different world religions preached the lifestyle which would optimize man's awakening to its conscious knowledge ("self-realization," "second birth," "mukti"). Divine incarnations, who came on this earth at different stages of man's evolution, prepared the setting for its manifestation, on a mass scale, as the phenomenon of "collective consciousness." Every reader is invited to verify personally the existence and the validity of this new awareness; many already have.

Scholars have long been intrigued by the Buddha's defining action (karma) as intention. This book explores systematically how intention, agency, and moral psychology were interpreted in all branches of early Theravada thought, paying special attention to the thought of the 5th-century commentator Buddhaghosa.
