Prepare future managers to face the differences in business communication across cultures. With the globalization of the world economy, it is imperative for current and future managers to be sensitive to the differences they will encounter in intercultural communication. To help make readers aware of these differences, *Intercultural Business Communication* contains practical guidelines and information on how to conduct negotiations across countries, write business letters in different societies, and includes the general “dos” and “don'ts” in international business. The fifth edition contains new cases, updated examples, and information from ten newly published books and journal articles.

The Essentials of Managing Programmes is an indispensable, applied guide to success in realising the benefits associated with delivering business strategy and change. John Bartlett opens with the purpose and application of programme management in the context of the business or organization. He explains how to organise for programmes, including the roles of the key players involved; how to design and establish a programme office. Three chapters cover the core elements of risk, benefits and governance. To help you think strategically, the author builds on soft systems thinking (Peter Checkland 1981) to visualise and communicate the dynamic nature of change and encourage employee involvement. Pick up and use this concise, intensely practical guide to develop a shared understanding, shared language and shared purpose in all your programmes; across project managers, sponsors, programme board members and all those involved in or affected by organizational transformation.
