The Art of Teaching Spanish explores in-depth the findings of research in second language acquisition (SLA) and other language-related fields and translates those findings into practical pedagogical tools for current—and future—Spanish-language instructors. This volume addresses how theoretical frameworks affect the application of research findings to the teaching of Spanish, how logistical factors affect the way research findings can be applied to teach Spanish, and how findings from Spanish SLA research would be applicable to Spanish second language teaching and represented in Spanish curricula through objectives and goals (as evidenced in pedagogical materials such as textbooks and computer-assisted language learning software). Top SLA researchers and applied linguists lend their expertise on matters such as foreign language across curriculum programs, testing, online learning, the incorporation of linguistic variation into the classroom, heritage language learners, the teaching of translation, the effects of study abroad and classroom contexts on learning, and other pedagogical issues. Other common themes of The Art of Teaching Spanish include the rejection of the concept of a monolithic language competence, the importance of language as social practice and cultural competence, the psycholinguistic component of SLA, and the need for more cross-fertilization from

This book, by contrast, starts from the observation that on legal, political and organizational levels integration has already taken place. It showcases the variety of theoretical approaches that scholars have developed to conceptualize Muslim life in Europe, and provides detailed empirical analysis of ten European countries. Demonstrating how Muslim life unfolds between conviviality and contentious politics, the contributors describe demographic developments, analyze legal controversies, and explore the action of government and state, Muslim communities and other civil society actors. Driving forces behind the integration of Islam are discussed in detail and compared across countries.
