The classic text on drawing human anatomy offers instructions on depicting such difficult areas as the lips, knee, ear, and nose

The Beauty Of The Human Body Inside this 8"x10" paperback, you will find 50 unique sheets of vintage anatomy drawings from antique medical books. The high-resolution illustrations are grayscale on color, high-quality #60 (100 GSM) paper in 7 alternating antiqued paper styles. The 50 non-perforated sheets in the book are single-sided, with 31 individual designs throughout. Some pages feature single illustrations or a drawing with text. Smaller images are paired on the same page to avoid crowding and to maximize the image detail without sacrificing quality or clarity. All images are easy to cut or tear out for craft projects or to frame as wall art. Images in this book are great for: Scrapbooks Decoupage Cardmaking Junk Journals Origami Paper Quilling Art Collages Framing For Home & Office Decor Discover the beauty of vintage anatomy art. Get your book today.

The seven-volume set LNCS 12261, 12262, 12263, 12264, 12265, 12266, and 12267 constitutes the refereed proceedings of the 23rd International Conference on Medical Image Computing and Computer-Assisted Intervention, MICCAI 2020, held in Lima, Peru, in October 2020. The conference was held virtually due to the COVID-19 pandemic. The 542 revised full papers presented were carefully reviewed and selected from 1809 submissions in a double-blind review process. The papers are organized in the following topical sections: Part I: machine learning methodologies Part II: image reconstruction; prediction and diagnosis; cross-domain methods and reconstruction; domain adaptation; machine learning applications; generative adversarial networks Part III: CAI applications; image registration; instrumentation and surgical phase detection; navigation and visualization; ultrasound imaging; video image analysis Part IV: segmentation; shape models and landmark detection Part V: biological, optical, microscopic imaging; cell segmentation and stain normalization; histopathology image analysis; ophthalmology Part VI: angiography and vessel analysis; breast imaging; colonoscopy; dermatology; fetal imaging; heart and lung imaging; musculoskeletal imaging Part VI: brain development and atlases; DWI and tractography; functional brain networks; neuroimaging; positron emission tomography
