The Middle School Writing Toolkit addresses the 5 major writing genres that middle-school students are expected to master - reports, persuasive essays, how-to (procedural) essays, narratives, and literary responses - and provides 57 mini-lessons and more than 200 workstation tasks to start English teachers well on their way to creating a successful writing program in the classroom.

Supplement your science curriculum with 180 days of daily practice! This invaluable classroom resource provides teachers with weekly science units that build students' content-area literacy, and are easy to incorporate into the classroom. Students will analyze and evaluate scientific data and scenarios, improve their understanding of science and engineering practices, answer constructed-response questions, and increase their higher-order thinking skills. Each week covers a particular topic within one of three science strands: life science, physical science, and Earth and space science. Aligned to Next Generation Science Standards (NGSS) and state standards, this resource includes digital materials. Provide students with the skills they need to think like scientists with this essential resource!
