Parks initiated an extensive study of the technology of British ordnance c1710-1860s to aid in the re-creation of period settings at a number of British military sites in Canada, and to provide a manual for the reconstruction of pieces of artillery, their carriages and platforms. The study covers the production of ordnance, the history of the development and design of various pieces (guns, mortars, howitzers, carronades), their carriages and platforms, and the development of gunpowder, cartridges, fuses, and projectiles.

Abstract: A guide to food safety explains safe methods of food preservation, storage, and preparation. A brief historical perspective is given. An explanation of food spoilage is provided. The 4 major food poisons, which are staphylococcus aureus (Staph), salmonella, Perfringens, and botulism, with particular emphasis on contaminated canned foods are all described. Suggestions are given on ways to keep kitchens and food safe. Advice on heating, refrigeration, and freezing is provided. Methods of ensuring the safety of microwave cooked foods are listed. Foods that require

Get Free Ge Monogram Stove Manual

special care, such as ground meats and poultry are identified. Care of canned goods, how to protect foods when the freezer or refrigerator fails, and reporting food related illnesses are discussed. An index is included along with information on where to get more information. (kbc).
