Sorry for ressurecting an old thread for an old receiver. I have an AVR 347 and just wanted to confirm the situation is the same as the 247 regarding remote codes. I finally upgraded to a Samsung TV that is 3D capable and smart, so while I don't watch 3D, I want to make sure the AVR has no issues with passthrough, since it is pre-3D.

people find information, and how you guide them. Ideal for beginning to intermediate web designers, managers, other non-designers, and web development pros looking for another perspective, *Designing Web Navigation* offers basic design principles, development techniques and practical advice, with real-world examples and essential concepts seamlessly folded in. How does your web site serve your business objectives? How does it meet a user's needs? You'll learn that navigation design touches most other aspects of web site development. This book: Provides the foundations of web navigation and offers a framework for navigation design Paints a broad picture of web navigation and basic human information behavior Demonstrates how navigation reflects brand and affects site credibility Helps you understand the problem you're trying to solve before you set out to design Thoroughly reviews the mechanisms and different types of

navigation Explores "information scent" and "information shape"  
Explains "persuasive" architecture and other design concepts Covers special contexts, such as navigation design for web applications  
Includes an entire chapter on tagging While Designing Web Navigation focuses on creating navigation systems for large, information-rich sites serving a business purpose, the principles and techniques in the book also apply to small sites. Well researched and cited, this book serves as an excellent reference on the topic, as well as a superb teaching guide. Each chapter ends with suggested reading and a set of questions that offer exercises for experiencing the concepts in action.
