"The songs selected for this compilation are a result of an exhaustive effort to represent the many styles of music that make up that beloved idiom we call jazz. The styles found in this collection include: traditional, swing, bebop, Latin/bossa nova, hard bop/modern jazz and Tin Pan Alley standards/show tunes..."--about this book.

You know your scales, understand how to play over a chord progression, and learned enough music theory to fill an encyclopedia, but you still aren't satisfied with your solos. This book teaches jazz guitarists how to apply their knowledge of scales, chord progressions, and music theory towards creating great guitar solos. Eight full-length solos in a variety of styles are studied in detail, including analysis of chord progressions and the material used to improvise over them, techniques, and structural characteristics. Styles range from classic standards and Gypsy jazz to Latin, modal and smooth jazz. All eight solos are performed on the accompanying CD.
