This book explores many issues raised by the range of ideas and images of the natural world in Western art since the Renaissance. The whole concept of landscape is examined as a representation of the

Online Library Landscape And Western Art

relationship between the human and natural worlds. Featured artists include Claude, Freidrich, Turner, Cole and Ruisdael, and many different forms of landscape art are addressed, such as land art, painting,

Online Library Landscape And Western Art

photography, garden design,
panorama and cartography.

This is a provocative essay
of reflections on
traditional mainstream
scholarship on Chinese art
as done by towering figures

writings. He argues that the search for optimal comparisons is itself a modern, Western interest, and that art history as a discipline is inherently Western in several identifiable senses.

Online Library Landscape And Western Art

Although he concentrates on art history in this book, and on Chinese painting in particular, these issues bear implications for Sinology in general, and for wider questions about humanistic inquiry and

Online Library Landscape And Western Art

historical writing. Jennifer Purtle's Foreword provides a useful counterpoint from the perspective of a Chinese art specialist, anticipating and responding to other specialists' likely reactions to Elkins's

hypotheses.
