Litmus paper is a type of pH paper made by treating the paper with natural dyes from lichens. The litmus test is performed by placing a small drop of sample onto the colored paper. Usually, litmus paper is either red or blue. Red paper turns blue when the pH is alkaline, while blue paper turns red when the pH turns acidic.

In the short-span compression test (SCT) the compressive strength of paper in compression mode is determined. Because only a very short length of paper (0.7 mm) is used in the test, greater account is taken of the load-bearing fiber portion of the material than with the traditional test methods (ring crush test, corrugated crush test or linear crush test).

Compression Test (SCT) Determining Short-Span Compression ...

An e25 test is a paper strip, a few inches long and less than an inch wide. It needs only some spit, a saline solution, and a small cup—and it can deliver a result in 15 minutes.

Scientists from academic and the paper industry compile as many aspects of testing properties of paper as possible into a broad reference to help people who plan, specify, and evaluate the physical and mechanical testing of paper material take advantage of the many developments in recent years. An initial essay in each volume discusses the independent invention and widespread use of paper in Mesoamerica beginning sometime before AD 660. The two volumes are paged and indexed separately, but do not seem to be topically distinct. The first edition, Handbook of Physical and Mechanical Testing of Paper and Paperboard appeared in 1983; the second contains 30 chapters, a third of which are new and the others substantially revised, updated, and expanded. c. Book News Inc.

For those who seeks a career in Research/ Lectureship in English Literature from the foremost reputed colleges and Universities of the country, UGC NET English may fulfill you dreams. UGC NET comprises of two papers- Paper 1 and Paper 2. UGC NET Paper 1 syllabus tests teaching and reasoning ability, research aptitude, comprehension, out-of-the-box thinking and general awareness of the candidate. UGC NET Paper 2 syllabus is predicted on the topic chosen by the candidate. it tests the candidates in-depth knowledge and expertise within the respective subject. EduGorilla is providing 20 full-length mock tests of paper 1 and paper 2 for strengthening your preparation to achieve success.

A teacher is a person who not only teaches but also guides his/her student in building a successful career. The future of a nation lies upon the level of knowledge the people in the country are having. Thus, the responsibility of a teacher goes far beyond what we think of it at an individual level. We have seen people are interested in making their career in many other professions but teaching as a profession is not the first choice in most cases. Nevertheless, teaching is one of the most interesting professions as it involves a continuous learning exercise and at the same time making others learned by delivering the knowledge one is having. The teachers assess their students but at first, they also get assessed under UGC NET conducted by the National Testing Agency. The National Eligibility Test (NET), also known as UGC NET or NTA-UGC-NET, is the test for determining the eligibility for the post of Assistant Professor and/or Junior Research Fellowship (JRF) award in Indian universities and colleges. UGC NET is considered as one of the toughest exams in India, with success ratio of merely 6%. Previously, the passing ratio was around 3% - 4%. Assistant Professors in private colleges may or may not be NET qualified but NET qualification is mandatory for universities & government colleges.

Historically speaking, the making of a teacher is rather a challenging and beautiful process. The same leads the nation to gain educated individuals who will now carry forward the legacy of their gurus. The passage of time stands witness to the fact that be it homemakers, home runners or breadwinners of the family, each needs to have basic education in order to lead a good life. Education is a charity that always begins at home but can only be executed properly by someone who is versed in the science of homemaking and running. A homemaker has the luxury to be able to impart knowledge in the rawest as well as the most effective manner. Since it is such a responsible job, NTA UGC NET takes up the initiative to shortlist the best of the best Home Science candidates for further studies. You will also find a plethora of UGC NET Home Science mock tests and UGC NET Home Science practice tests 2020 with us.
