Ruth Swain, viso affilato, labbra sottili, pelle pallida incapace di abbronzarsi, lettrice di quasi tutti i romanzi del diciannovesimo secolo, figlia di poeta giace a letto, in una mansarda sotto lapioggia, «al margine – come lei dice – tra questo e l'altro mondo». Un giorno è svenuta al college, e da allora, malata, trascorre le sue ore in compagnia dei libri ereditati dal padre. Romanzi, racconti e versi attraverso i quali si avventura su sentieri sconosciuti, vive vite altrui

piene di amori e passioni travolgenti, apprende cose che pochi sanno: che Dickens, ad esempio, soffriva d'insonnia e di notte passeggiava per i cimiteri; o, ancora, che da giovane Stevenson aveva attraversato la Francia dormendo sotto le stelle, in compagnia di un'asina che somigliava vagamente a una signora di sua conoscenza. Quando si è costretti tra le pareti della propria stanza, è bello scivolare dentro altre storie, diventare Jane Austen che, dopo la dichiarazione del suo spasimante, il signor Bigg-Wither, trascorre una notte insonne, oppressa dal pensiero di mettere al mondo dei piccoli Bigg-Wither; oppure Emily Dickinson che scriveva facendo largo uso delle maiuscole. È bello, soprattutto, ripercorrere il sentiero della storia della propria famiglia, scavare tra i secoli, tra reverendi bizzarri e un vasto assortimento di eccentrici irlandesi, per scoprire il fardello dell'ambizione smisurata degli Swain: l'ossessione di un mondo migliore dove Dio possa correggere i propri errori e gli uomini e le donne possano vivere la seconda stesura della Creazione, liberi dal dolore. Mentre la pioggia batte sul tetto della mansarda, Ruth rovista così tra i libri e legge e raduna attorno a sé tutto quello che può: la vecchia edizione arancione di Moby Dick della Penguin, un libro che ingrassa ogni volta che lo prende, la copia di Ragione e sentimento con il ritratto di Jane con la cuffietta in testa, le memorie del Reverendo, il bisnonno che nella sua mente assomiglia al vecchio Gruffandgrim di Grandi speranze, gli appunti di Abraham, il nonno, che anziché abbracciare la chiamata del Signore abbracciò quella della pesca al salmone, i quaderni da bambino su cui Virgil, figlio di Abraham e suo amato genitore, annotava con la matita le sue poesie. Storie che, come tutte le storie, si raccontano e si leggono per scacciare il male di vivere o, come nel caso di Ruth, per mantenersi ancora «al margine tra questo e l'altro mondo». Finalista al Man Booker Prize, il prestigioso premio britannico, Storia della pioggia è uno dei romanzi più celebrati della recente

stagione letteraria. Inno al potere curativo dei libri, l'opera di Niall Williams ha incantato critici e lettori per la bellezza della sua scrittura e la sorprendente originalità con cui svolge l'antico tema del legame tra letteratura e vita. «Tutti raccontiamo storie. Le raccontiamo per passare il tempo, per dimenticare il mondo o capirlo meglio. Raccontiamo storie per scacciare il male di vivere». «Una lingua che incanta per la sua bellezza, un romanzo che, con una trama coinvolgente, tesse un'ode alla letteratura». Guardian «Destinato a diventare un classico... Una lettera d'amore alla lettura e al suo potere di ridare vita alle cose». Library Journal «Un peana al piacere di leggere». Telegraph «Compratelo, fatevelo prestare, rubatelo, ma non perdetelo!». Angela Young

Volumes of the Topical Issues in Pain series are now a common sight in Physiotherapy departments and practices throughout the UK. More and more students are using them to learn clinical skills and as key references for study and research. The accolades the series has received from within and outside the profession are both moving and cheering for Physiotherapy. This 5th volume energetically moves the boundaries of Physiotherapy on, divided into 5 sections, it considers some of the most important issues and challenges facing clinicians and society today. The section on return to work (3) examines the financial and human costs of work absence, the difficulties that surround and often prevent people in pain from returning to work and finally details practical ways of helping patients actually get there. It is becoming increasingly clear that the traditional treatments being offered for common and

benign pain states, whether by therapists, Drs or Surgeons, are ineffective when measured in terms of return to work and confident function - why is this? The answers most likely lie in the broader, multidimensional, understanding of pain biology (section 5) that is embraced in the principles and practice of cognitive-behavioural therapies and approaches (section 4), especially when they are used alongside physical rehabilitation programmes (sections 1, 2, 3 & 4). Vitally, these proven approaches are patient-orientated requiring highly trained experts in listening, explaining and communicating (sections 1 & 2). This book acknowledges that there no simple 'fix' that takes a hurting human being from a state of vulnerability back to one of physical confidence and full working potential. What it is does though, is breathe a breath of optimism into the current state-of-the-art of the physical pain-management process that, when skilfully applied, actually does help a great deal. The Topical Issues in Pain series derives from the work, study days and seminars of the Physiotherapy Pain Association and is written by clinicians for clinicians.
