Fear. Panic. Those emotions are my reality. They are my every day. I am Avery, and I am seventeen. My father died a year ago. Since then I've been responsible for my eight-year-old sister, June. I worry we are the only humans left. Humans have been hunted for centuries, to the brink of extinction. I must fight each day to protect my sister. It is the reason I wake, the reason I breathe. But how long can I go on fighting? How long will it be before they find us? More than two hundred years into the future, human beings are an endangered species. The planet has been battered by war, its inhabitants plagued by disease and death. Few humans survived and remained unaffected. Most changed dramatically and evolved into something else entirely. Irrevocable alterations caused by chemical warfare have created a new species. North America is in ruins and has been overtaken. Humanity has fallen at the hands of mutants known as Urthmen. Seventeen year-old Avery is alive and unchanged. But she has not been immune to the harshness of the new world. She has lived on the run for much of her life, in terror. After losing her father, Avery is the sole guardian of her eight-year-old sister, June. Avery is now charged with June's safety as well as her own, a nearly impossible task. Forced to hide deep in the forest and away from the cities overrun by Urthmen, Avery and her sister are constantly hunted. Danger awaits them at every turn. They fear they are the only human beings left, that they are the last of their kind. But are they truly alone? Planet Urth: The Savage Lands (Book 2) After fleeing the only refuge she's known for much of her life, Avery, along with her sister June and new friends, Will, Oliver and Riley forge through the forest to uncharted territory in search of a better life, in search of other survivors. But Avery soon learns that life beyond the woods is far worse than she ever imagined. She finds that safety does not exist for human beings in a world run by Urthmen. Hope seems futile. But Avery refuses to surrender hope and chooses, instead, to push forward and move her group into the heart of danger, to seek out more humans. Will she and the others survive their journey into the savage lands of Planet Urth? Planet Urth: The Underground City (Book 3) We can't stay out here in the open any longer. We killed the king's son. They need to find fuel so that they can travel across the country to the underground city, to a place where humans live safely, free from the terrors above ground. But once they make it there, will it be the idyllic paradise they imagine it to be or will it be worse than the current nightmare in which they live?

In the sci-fi world of the late author Jack Nast, the planet Xena, attempting to launch its first manned rocket ship, instead has its ship hijacked by a young would-be priest. The ship gets caught up in the tail of a passing comet and is catapulted to the far side of the sun, where an unknown planet's gravity saves it from destruction. Atlan, the ship's soul occupant, survives the crash on Urth. Though he is looked upon as a traitor by his own people, he becomes a god in the eyes of people on Urth. Years after he establishes himself as a ruler, another ship arrives from Xena piloted by his arch rival Trianos. Atlan is arrested and transported back to his home planet for trial. Banished to prison, Atlan escapes using the power of a crystal and makes his way back to his wife on Urth. They become rulers of a new nation named in honor of Atlan, called Atlantis. Author Jack Nast settled in Tarpon Springs, Florida, to start a boat building business. He then became a sports writer and author before illness overtook him. Nast died in 1990 with most of his writing unpublished. Nast's widow, Theresa Lori Taylor Nast, chose author David A. Britner to finish Jack's work because of their similar mindset.

The world has changed from what it once was. A dark new species rules the planet. Humankind is endangered. I spent all of my seventeen years deep in the forest in a hidden village with other humans, safe from the savage creatures that inherited Urth. But one day, all of that changed. Our village was found. We were discovered. My people were slaughtered. None were spared, except the young. Taken and forced into a life of slavery, we've been thrust into a civilization where one rule applies: kill or be killed. It is the only way to survive. As

a result, I worry I'm lost, that I've strayed so far from what characterizes me as human I wonder some days whether I am any better than the creatures who enslave me. Then the love I feel for my siblings reminds me. The constant fear for their safety that drums in time with my heartbeat. The realization that I hate what has been done to them, to me. I vow to avenge what's happened, to free us. Or die trying. I am Lucas. This is what life is for humans on the remains of planet Urth.
