NATO countries rise up and support their Ukrainian allies in their hour of need, whereas others dither, scared to square up to a superpower. But what is the Russian president really up to? Duplicity was successful. Will his deception be equally so? Return to Harvey Black's chilling Cold War - Redux series, based on the real events of the 2014 Ukrainian revolution, in this action-packed sequel to 'Duplicity'. Can anything be done to stop President Putinov bringing the world to the brink of destruction?

Includes an excerpt from: Crisis shot, the

Arctic Surveys with the US Navy Oceanographic Office ships USNS Dutton and Michelson and the Coast and Geodetic Survey ships Surveyor and Oceanographer. These were the first modern geophysical surveys in the North Sea and offshore Alaska, Washington to California and Hawaii. His particular expertise in modern geophysical surveying and mapping has led to well grounded understanding of coastal and sea floor features of the arctic and Antarctic, using new ice and sediment mapping techniques tied to modern navigation and positioning. His hobby is understanding man's adaptability to climate, early migrations,

exploration and appreciation of the Neolithic mind gaining man's survival abilities.

Adequate education of the public, including historic climate change information, for planet management seems necessary. The fact that 700 million years ago, earth was locked in ice cover for millions of years should be realized. Then vast volcanic eruptions created a greenhouse gas atmosphere and earth's climate alternated between too hot and too cold for human development. These conditions should be understood and avoided at all costs. For future survival, humans must understand the importance of climate and
