Operations and Supply Management, as the title indicates, provides increased emphasis on supply chain management in the 12e. The 12e continues its market leading up-to-date coverage of service operations as well. The text includes solved examples and problems, enough cases for MBA courses to use without supplementing, and the industry leading technology support suite.

Chase, Jacobs and Aquilano: Operations Management for Competitive Advantage, 11/e (CJA) provides a current and thorough introduction to the concepts, processes, and methods of managing and controlling operations in manufacturing or service settings. The text provides comprehensive coverage, from high-tech manufacturing to high touch services with a balanced treatment. Chase, Jacobs, and Aquilano also thoroughly integrates and discusses current issues such as globalization; supply chain strategy, E-business, and ERP. The concepts are illustrated by using abundant real world examples, articles, illustrations, problems and cases. Technology is integral to the success of this course, as such, CJA also provide students and instructors with an innovative array of leading edge technology learning and teaching tools.

"Operations and supply chain management (OSCM) is a key element in the improvement in productivity in business around the world. Establishing a competitive advantage through operations requires an understanding of how the operations and supply chain functions contribute to productivity growth. However, our intent in this book is to do more than just show you what companies are doing to create a competitive advantage in the marketplace by conveying to you a set of skills and tools that you can actually apply"--

Jacobs and Chase focus on the core concepts of operations and supply management. This condensed text was constructed with sections on the four essential core areas-strategy, process management, supply chain management, and inventory and control (supply and demand planning).

Chase, Jacobs and Aquilano: Operations Management for Competitive Advantage, 11/e (CJA) provides a current and thorough introduction to the concepts, processes, and methods of managing and controlling operations in manufacturing or service settings.
