Anyone Can Do It chronicles the start and evolution of a successful business dream. Beginning with the Hashemi siblings' first conversations (when the seed of the idea was planted) it follows the progress of Coffee Republic from business plan to the present day. Coffee Republic is now worth around £50m with 90 outlets around the UK. This is a start-up business book for real people. Sahar and Bobby take the reader step by step through every aspect of starting and growing a business from asking 'why?' and writing the plan to hiring staff and letting go. The book is illustrated throughout with inspirational anecdotes from their own experience. It is a very personal story of dreaming, acting and succeeding offering a myriad of lessons for aspiring entrepreneurs and blowing apart the myth that only 'special' people start successful businesses.

In this updated guide, Vault publishes the entire surveys of current students and alumni at more than 100 top business schools. These narratives provide applicants with detailed and balanced perspectives and insider information on admissions and employment prospects, which is lacking in other business school guides.
