A Separate Peace by John Knowles Chapter 1 I went back to the Devon School not long ago, and found it looking oddly newer than when I was a student there fifteen years before. A Separate Peace by John Knowles

A Separate Peace is a novel told entirely in flashback, by a narrator—Gene Forrester—who is our only source of information regarding the events that he recounts. As the story develops, the initial trust that exists between reader and narrator gradually frays, as we realize that Gene, while probably not lying about the events of the story, is clearly withholding information about his own motivations for, or reactions to, the deeds of himself and others.

Two decades after the war, Bosnia and Herzegovina (BiH) still faces a weak national identity and ethnic and religious divisions that are further preventing the country from reaching sustainable peace and development. The education system is also divided along ethnic and religious lines. This study discusses research questions about challenges BiH has been facing on its way to peace transformation; about relation between the current educational system and development of sustainable peace in BiH; as well as to answer how to achieve positive and sustainable peace in BiH through peace education. In order to offer a peacebuilding framework the study offers an analysis of the role of education and educational programmes (formal and non-formal) in the creation of ethnic identity and peaceful coexistence in BiH since the Ottoman Empire until today. The study relies on interviews with stakeholders from BiH about gaps in the peacebuilding process, education system and suggestions for improvement.

The urgency to tell the story of the former Yugoslav Republic of Macedonia, the only republic in the former Yugoslavia to secede without bloodshed, is made more compelling by the crisis in Kosovo. In *Making Peace Prevail*, Alice Ackermann offers the first in-depth account of how Macedonia—one of the few examples of successful preventive diplomacy—held onto peace during the violent

breakup of Yugoslavia in the 1990s. Faced with ethnic tensions and the threat of the Bosnian war, this republic was spared the fate of Croatia and Bosnia. With this book Ackermann furthers our understanding of the challenge in conflict prevention in multiethnic and newly democratized societies. She provides a framework of analysis that underscores the "art of conflict prevention." She notes the activity of the major players such as the United Nations and the Organization for Security and Cooperation in Europe (OSCE) but maintains that groups such as the Working Group of the International Conference on the Former Yugoslavia—although not in the public eye—accomplished much through an "interactive workshop" approach to conflict management. In her epilogue Ackermann addresses the most recent developments with NATO's intervention in Kosovo and the Balkans and the internal forces at work in Macedonia, which account for its current state of stability.

Within the Middle East, the Camp David Accords are the subject of great debate. Many in the Arab world, and even some in Israel, regard them with hostility. Others, especially in the United States, see in the Camp David formula the only hope for successful resolution of the Arab-Israeli conflict and lavish praise on the accords. But the broad impact of the accords on the Middle East and on the prospects for peace has never been fully analyzed by Middle Eastern or American specialists. This new work, published to mark the tenth anniversary of the accords, offers the comprehensive assessment necessary to discuss the next steps in the Middle East peace process. Now more than ever Americans need to understand how the Camp David Accords affected the entire Middle East region—not just Egypt and Israel—to deal with the complexities of future peace efforts. The authors provide an analytical basis for understanding the intricate links among domestic political forces, regional politics, and superpower policies as elements in the Arab-
