This comprehensive reference work brings together for the first time information on every aspect of the parvoviruses in a single volume. It presents the new system of parvovirus classification, as agreed by the International Committee for the Taxonomy of Viruses (ICTV), and includes cutting edge information on the virology, molecular and cellular biology, immunology and clinical manifestations of infection with each known and proposed member of the family Parvoviridae. The book also describes the rapidly expanding basic and clinical science which underpins gene therapy applications using helper-dependent and helper-independent parvoviruses. The respected editorial group has drawn together renowned contributors from around the world to produce what will undoubtedly become the standard reference on the subject. It is essential reading for clinical or research virologists and microbiologists, infectious disease specialists, and public health specialists and laboratories.

The most complete, authoritative text available on autoharp. Teacher and author Meg Peterson presents a colorful array of songs and styles as well as a myriad of strum patterns in an easy-to-understand manner. This self-teaching course features Meg's highly acclaimed system for teaching melody solo performance on the autoharp. Each of its 48 lessons builds on the one before it, with a reference section included for those who wish to learn about music notation, theory, harmony, transposition, and chord substitution. There are 122 practice songs and many more suggested ones. Also included is information on tuning, changing strings, and altering chord position on the instrument. the CD is a stereo teaching tape with vocal instruction and performance demonstrating many of the strum patterns and tunes in the book at full tempo with a singer.
