conditioning Fuel and exhaust Emissions control Ignition Brakes Suspension and steering Electrical systems, and Wiring diagrams.

Discusses turn-of-the-century inventors and the impact of inventions including electricity in the home, the telephone, automobiles, and airplanes.

Travis Pastrana, the most celebrated freestyle motocross rider in the world, knows no bounds. In 1999 he celebrated his first X Games gold by launching his bike into San Francisco Bay. Three years later, he rode straight into the Grand Canyon. On purpose. In *The Big Jump: The Tao of Travis Pastrana*, he makes his biggest leap yet, revealing for the first time the methods (and madness) that fuel his amazing feats. At 14 Pastrana was the youngest World Freestyle Motocross champion. At 17 he was the youngest racer ever to represent Team USA in the Motocross des Nations. Each of *The Big Jump's* chapters builds toward another breathtaking accomplishment, ending with the "impossible" double backflip during X Games 12 that brought Pastrana not just gold but certified legend status. With a foreword by Mat Hoffman, the godfather of BMX, *The Big Jump* is a fuel-injected ride into the mind and heart of Travis Pastrana.
