~~Tali Sharot | Unpacking the Science of the Influential Mind~~

When two people make decisions together, when they disagree.... the brain really fails to encode the information coming from the disagreeing partner. But when two people agree, each person is very precisely encoding the information coming from the agreeing partner. Her latest book, The Influential Mind, explores the many ways our brain receives information and why.

Selected as a best book of 2017 by Forbes, The Times, Huffington Post, Bloomberg, Greater Good Magazine, Stanford Business School and more. 'A timely, intriguing book' Adam Grant, New York Times bestselling author of Originals and Give and Take 'This profound book will change your life. An instant classic' Cass R. Sunstein, bestselling co-author of Nudge Part of our daily job as humans is to influence others; we teach our children, guide our patients, advise our clients, help our friends and inform our online followers. We do this because we each have unique experiences and knowledge that others may not. But how good are we at this role? It turns out we systematically fall back on suboptimal habits when trying to change other's beliefs and behaviors. Many of these instincts-from trying to scare people into action, to insisting the other is wrong or attempting to exert control-are ineffective, because they are incompatible with how the mind operates.
