"When Ted and Kat watched their cousin Salim get on board the London Eye, he turned and waved before getting on. After half an hour it landed and everyone trooped off - but no Salim. Where could he have gone? How on earth could he have disappeared into thin air? Since the police are having no luck finding him, Ted and Kat become sleuthing partners. Despite their prickly relationship, they overcome their differences to follow a trail of clues across London in a desperate bid to find their cousin. And ultimately it comes down to Ted, whose brain works in its own very unique way, to find the key to the mystery. This is an unputdownable spine-tingling thriller!"

to Ted, whose brain works in its own very unique way, to find the key to the mystery. This is an unput-downable spine-tingling thriller—a race against time.

When Ted and Kat's cousin Salim disappears from the London Eye ferris wheel, the two siblings must work together--Ted with his brain that is "wired differently" and impatient Kat--to try to solve the mystery of what happened to Salim.

My name is Ted Spark. I am 12 years and 281 days old. I have seven friends. Three months ago, I solved the mystery of how my cousin Salim disappeared from a pod on the London Eye. This is the story of my second mystery. This summer, I went on holiday to New York, to visit Aunt Gloria and Salim. While I was there, a painting was stolen from the Guggenheim Museum, where Aunt Gloria works. Everyone was very worried and upset. I did not see what the problem was. I do not see the point of paintings, even if they are worth £9.8 million. Perhaps that's because of my very unusual brain, which works on a different operating system to everyone else's. But then Aunt Gloria was blamed for the theft - and Aunt Gloria is family. And I realised just how important it was to find the painting, and discover who really had taken it.

After Shell's mother dies, her obsessively religious father descends into alcoholic mourning and Shell is left to care for her younger brother and sister. Her only release from the harshness of everyday life comes from her budding spiritual friendship with a naive young priest, and most importantly, her developing relationship with childhood friend, Declan, charming, eloquent and persuasive. But when Declan suddenly leaves Ireland to seek his fortune in America, Shell finds herself pregnant and the centre of a scandal that rocks the small community in which she lives, with repercussions across the whole country. The lives of those immediately around her will never be the same again.

Digging for peat in the mountain with his Uncle Tally, Fergus finds the body of a child, and it looks like she's been murdered.
