The Christian concept of heaven flourished for almost two millennia, but it has lost much of its power in the last hundred years. Indeed today even theologians tend to

avoid the topic. This stimulating book sets out to rehabilitate heaven by forcefully attacking a series of ideas that have made belief in heaven, not to mention belief in God, increasingly difficult for modern people. The author provides elegant and persuasive refutations of arguments ranging from the idea that science has disproved the existence of the supernatural, to the notion that biblical criticism has emptied the scripture of meaning. Along the way, as Russell looks at the ideas of Charles Darwin and Herbert Spencer, Mark Twain and Alfred Lord Tennyson, Marx and Freud, and a host of others, he sheds light not only on the history of Christian thought, but on the process of secularization in the West. One by one, Russell refutes these anti-religious ideologies, pinpointing the deficiencies of their reasoning. "A marvelous overview of the many philosophical, literary, social, and even religious forces that have challenged the concept of heaven.... Russell's elegant and richly textured survey of heaven offers a first-rate history of a much-debated subject." --Publishers Weekly (starred review) "Believers and unbelievers alike will find much here to challenge their thinking.... Russell argues that, far from hiding dark realities behind pretty illusions, the great metaphors of Christianity--from the luminous New Jerusalem of Revelation to the heavenly chariot of African American spirituals--gesture toward realities too cosmic to fit within ordinary language." --Booklist (starred review) Patient, generous, eloquent, it delivers to the ordinary reader a brilliant analysis of the long battle for Christian ideas. Russell shrinks from nothing as he pierces the illusions surrounding skepticism and cynicism and how these biases have come to dominate our daily

lives. Vitally important for those of us who struggle to articulate the richness of the faith they hold dear." --Anne Rice

This thesis examines the political dimension and underlying continuities of John Milton's use of biblical and reformation history in *Eikonoklastes*, *Paradise Lost*, and *Paradise Regain 'd*. In Chapter I, the rhetorical tactics of *Eikonoklastes*-particularly the prefatory material-represent an attempt to outline a different notion of civic and spiritual security, independent of monarchical oversight, and are presented as crucial contexts for the political ambitions of Milton's later epic poetry. The discussion of *Paradise Lost* as a text deeply interested in the contemporaneous rhetoric of security is contained in the prolegomena and Chapters II and III. Chapter II is a consideration of Milton's redaction of Old Testament history in the epic catalogue of Book I, in which I argue that key elements of its interaction with epic convention have been overlooked; this reading offers a more appropriate understanding of Milton's own perception of societal decline and proposes an oppositional commentary on the shortcomings of Restoration England's polity. I argue that Milton's presentation of both Edenic security and prelapsarian prayer in Chapter III are not only distinct to him, in literary and social terms, but are also explicable as interventions on contemporary anxiety over the relationship between Church and State. Finally, in Chapter IV I contend that *Paradise Regain 'd* is the most authoritative poetic expression of Milton's mature political thinking via a re-examination of its genre, protagonist, and non-traditional banquet temptation.

Having established the conspicuous political identity of the poem's content and form, I then discuss how the poem's use of biblical history is structured to oppose contemporaneous appeals to the 'common good' and quiescence at any price.

Johnny stopped his horse; he could hear shooting in the far distance. 'I'm too far away to give them help. I shouldn't have stayed at the line camp.' He put his horse into a cantor and turned toward the distant shooting. Johnny took his Sharp, hobbled his horse and mules, and climbed a hill overlooking the edge of the battlefield. Poetry. Poems of daily diligence, attenuated to the rhythms of rural life, meet with poems of Buddhist inspired meditations on how these rhythms fit into larger life patterns in Maj Ragan's latest collection, *A HUNGRY GHOST SURRENDERS HIS TACKLEBOX*. In his hands poetry becomes that dirt road winding back home, corn tassel, fencerows, the last light fading in the top branches of a century oak, bridging solitude and community, a way to offer one's longings to the world. "Pay the bill for the water/ in which you boil the rice. The rice sustains the body./ The water—from *A HUNGRY GHOST SURRENDERS HIS TACKLEBOX*."

Paradise Lost is an epic poem in blank verse by the 17th-century English poet John Milton (1608-1674). The first version, published in 1667, consisted of ten books with over ten thousand lines of verse. A second edition followed in 1674, arranged into twelve books (in the manner of Virgil's Aeneid) with minor revisions throughout and a note on the versification. It is considered by critics to be Milton's major work, and helped solidify his reputation as one of the greatest English poets of his time. The poem concerns the Biblical story of the Fall of Man: the temptation of Adam and Eve by the fallen angel Satan and their expulsion from the Garden of Eden. Milton's purpose, stated in Book I, is to "justify the ways of God to men". Paradise Regained is a poem by English poet John Milton, first published in 1671 by John Macock. The volume in which it appeared also contained the poet's

closet drama *Samson Agonistes*. *Paradise Regained* is connected by name to his earlier and more famous epic poem *Paradise Lost*, with which it shares similar theological themes; indeed, its title, its use of blank verse, and its progression through Christian history recall the earlier work. However, this effort deals primarily with the temptation of Christ as recounted in the Gospel of Luke.

The ability to imagine is at the heart of what makes us human. Through our imagination we experience more fully the world both around us and within us. Imagination plays a key role in creativity and innovation. Until the seventeenth century, the human imagination was celebrated. Since then, with the emergence of science as the dominant worldview, imagination has been marginalized -- depicted as a way of escaping reality, rather than knowing it more profoundly -- and its significance to our humanity has been downplayed. Yet as we move further into the strange new dimensions of the twenty-first century, the need to regain this lost knowledge seems more necessary than ever before. This insightful and inspiring book argues that, for the sake of our future in the world, we must reclaim the ability to imagine and redress the balance of influence between imagination and science. Through the work of Owen Barfield, Goethe, Henry Corbin, Kathleen Raine, and others, and ranging from the teachings of ancient mystics to the latest developments in neuroscience, *The Lost Knowledge of the Imagination* draws us back to a philosophy and tradition that restores imagination to its rightful place, essential to our knowing reality to the full, and to our very humanity itself."
