of ADB's operations in India and how these have evolved to support the Government of India's focus on high, inclusive and sustainable growth. As of December 2012, the Asian Development Bank (ADB) had approved 168 sovereign loans amounting to \$27.2 billion and 344 technical assistance projects amounting to \$258 million on a cumulative basis for India. Today, ADB operations cover over 20 states in India. While infrastructure projects in the energy, transport, and urban sectors comprise over 75% of ADB's operations in the country, ADB is also engaged in promoting water resources management, agribusiness infrastructure development, financial inclusion,

2014 society, in particular on issues such as advanced and sustainable technologies for manufacturing processes, environment, livelihood, rural employment, agriculture, energy, transport, sanitation, water, education. This conference aims to help innovators to share their best practices or products developed to solve specific local problems which in turn may help the other researchers to take inspiration to solve problems in their region. On the other hand, technologies proposed by expert researchers may find applications in different regions. This offers a multidisciplinary platform for researchers from a broad range of disciplines of Science, Engineering and Technology for

TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors

(agriculture, industry, transport, household), and local and global environment sectors (environment and climate change). The publication also provides a review of the government policies that have implications for the sectors of the Indian economy. In TEDDY, an account of India's commercial energy balances is given, which provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for researchers, scholars, and organizations working in the energy sector. After the introductory chapters,

for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. Interactive graphs, figures, maps, and tables have been used throughout the chapters to explain facts, which make the book an interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above-mentioned sectors. The publication is accompanied by a complimentary CD containing full text. The publication has more than 15,000 readers across the globe and is often cited in international peer-reviewed journals and policy documents.

the Jawaharlal Nehru National Urban Renewal Mission (JNNURM) right from its inception to its present-day avatar. The book significantly adds to the knowledge base on the urban history of India. Commencing with a historical background of the JNNURM, the book traces the evolution of public policy in India on urban growth. In the process it provides an understanding of the complex urban issues and examines whether the JNNURM is a project response or a policy response to these problems. The rationale behind the choice of the cities covered by the Mission, the scope and coverage of the work undertaken and the progress till date are extensively discussed. The formidable problems of mega-
