discontinued models this book will fascinate any VW fanatic.

This revised and expanded third edition updates the story across six generations of the VW Bus and includes additional information and pictures, including more conversions, as well new information about the very early years and the latest models. Using archive and period brochure images, and photographs of original-condition models still surviving to illustrate the detailed text, it documents the various specifications, layouts, fitments and optional equipment of over forty different conversion companies, from well-known names like Devon and Westfalia, to lesser-known or unusual models such as Slumberwagen and Arcomobil. Since publication of the first
