To understand more about this book I suggest reading the Foreword, Preface, About the Author, and Table of Contents on our webpage www.MenLikeBars.com. Women write most relationship and advice books; therefore it is fair to assume that this book is the first of its kind written by a real man.

Why are men afraid to commit? Dr Weinberg answers this question in WHY MEN WON'T COMMIT and shows women how to help their men change their minds. Dr Weinberg considers that men have four basic needs (the need to be special, to travel light, for loyalty and for emotional closeness) and if they feel that these aren't being met they will develop bad gut reactions against their girlfriends, which will most likely mystify these women. The problem for women and men is that men themselves couldn't tell you about these needs because they've grown up establishing a 'masculine pretence' that forbids them from showing emotion or discussing problems. Dr Weinberg's WHY MEN WON'T COMMIT provides a bridge between the two sexes that will lead to greater understanding, greater commitment and greater happiness. This is a unique approach to an age-old problem because it shows women why they needn't play games, or lose their own dignity, to help men commit. An informed, practical, straight-talking guide to men, or as Dr Weinberg calls them 'the fragile sex', WHY MEN WON'T COMMIT is invaluable to every woman who feels her single life must end - and soon!

A shocking and frequently hilarious exposT of stereotypical gender differences answers common questions about why men are turned on by the things that turn women off, why blondes have high fertility rates, the relationship between PMS and sex drive, why men are better at parallel parking, and more. Reprint. 25,000 first printing.

Breadfruit or Chestnut? examines gender construction comparatively across the fiction of contemporary writers of Guadeloupe and Martinique. In particular, it explores the construction of gender identity by six authors—three male and three female—who have never been brought together in a study of this issue. Rather than following the trend of studying theory and cultural identity in the central male writers and of studying "women's writing" in the works of the female writers, Thomas expertly blurs these traditional boundaries in order to present an unexplored aspect of identity. In addition to illuminating women's conception of gender, this work examines the male equivalent and how each gender observes and perceives the other. Breadfruit or Chestnut? not only contextualizes the primary literature, but also draws on contemporary theoretical debates surrounding feminism, subjectivity, and postcolonialism. The combination of literary and historical tools of analysis allows for a deeper probing into gender relations in the French Caribbean.
